## 'STUNG'

Horsemen Have 100 Days "Sport of Kings" Every Year at Juarez

including a few battles. They furnish 1200 horses, 1200 men, 1200 women and 1200 bull dogs to pull off the show with and receive the magnificent sum of \$1800 a day in purses. That's \$1.50 a day to keep up a race horse, a trainer, a woman and a bull dog; that's only \$2.50 a week apiece, including the bull dog. We don't see no reason for the Socialists to be kicking when race horse people can get along so cheap. We have contributed a suit of clothes, a new bicycle, a wedding ring and a "Never Ready" shaving outfit to the sport this winter without our consent. We believe it would be cheaper to contribute \$25 a year for a "county fair" and work off all the meanness there is in town in one week than to fool away 100 days to please a few New York bunco men. We will make a breeding farm for Kentucky jacks, white faced bulls and standard bred Clydesdale horses out of the Juarez race track if El Paso wants us to. We broke all the green cloth gamblers in El Paso a few years ago for 25c and put most of them on farms and they are tickled over the deal. If there is one single preacher in El Paso that calls up the Myrtle Trading Place next week and asks us to dispose of the Juarez race track, then we will put it on the hummer and please every fool chump that has been thinking he's a sport for these many years. That's the beauty of our scheme. We don't close out the horsemen or gamblers without giving them a better job, a place where they can bet their money and talents every day in the year. We don't think of trying to abolish the red light district without first finding a better job for the people there. The reason we are so successful with gamblers is because they are willing to take a chance and we have the proper game for them every day in the year. Call us up at
